

English

'The Arrival' by Shaun Tan is a series of wordless images, which tells the story of a migrant's experiences. Using this text, the children will have the opportunity to respond to what they can see, infer and predict in the story through poetry, narrative and letter writing.

Maths

For the first half of this term, we will be revising different maths topics in preparation for the KS2 National Tests. This will vary from group to group dependent on what the children need and what they have asked to revise.

PE and Games

This half term, indoor PE will involve balance, shape and travel, where the children will develop and practise their own ideas to create a performance.

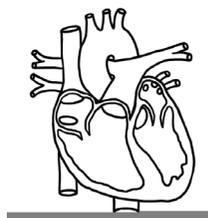

Outdoor games will focus on athletics, where we encourage all children to participate and develop skills in a range of athletic events in preparation for Sports Day.

Blackland Farm: Just a reminder of the meeting for parents and carers on Monday 20th May 2019 at 3:30 p,m in the large hall. Please make every effort to attend as important information will be shared at this meeting.

Science

The human circulatory system is the topic for our Science this half term. Children will delve into the human body and learn about the function of the heart and lungs and how the blood circulates around their body.

Towards the end of this half term and in preparation for secondary school, we will be learning about the risks and effects of alcohol and drugs.

Y6 SATs

The KS2 National Tests take place during the week of May 13th 2019. We view this as an opportunity for the children to show off and celebrate what they have learnt and achieved during their time at primary school and we all obviously want them to do their best. They have been working so hard and it is wonderful to see the progress in their learning. Good luck to all of our Year 6s!

Year 6

Summer Term

First Half

British Values and Citizenship

Linking in with our key text, the children will be learning about refugees, where they will gain a deeper understanding of the history of refugees as well as different experiences of young refugees.

Music

In music, children will have the opportunity to learn about how different types of music can be made as well as how to develop their own body percussion skills.
